

TEP Culture and Education Association (TEP)

TEP Culture and Education Association (TEP), established in 2010, is an NGO (Non-Governmental Organization) from Taiwan dedicated to youth education, employment promotion and agriculture cooperation in Southeast Asia.

I. TEP Development History

TEP started its Cambodia services in 2010, followed by Vietnam Services in 2018. TEP Laos Services is scheduled to start in 2020.

In Cambodia, TEP has set up Cambodia Team for Education Program Organization (CTEP) which is an NGO registered with Cambodia government. Similar NGOs will be registered in Vietnam and Laos.

Cambodia : CTEP Rice Soup Students Lunches (2010 ~ 2011 ended)

Cambodia : CTEP Urban Education (2011 ~ 2013 ended)

Cambodia : CTEP Rural Education (2012 ~)

Cambodia : CTEP Youth Employment (2015 ~)

Cambodia : CTEP Agricultural Cooperation (2018 ~)

Vietnam : VTEP Rural Education (2018 ~)

Laos : LTEP Rural Education (2020 ~)

Cambodia TEP (CTEP)

Vietnam TEP (VTEP)

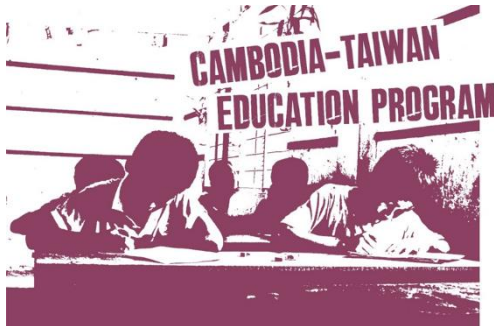

Laos TEP (LTEP)

II. TEP Policy and Governance

- 1) The policy : TEP does not build school buildings or distribute financial relief. Its efforts are entirely in the rural area and concentrated on providing the computer and language skills education and promoting employment and agriculture cooperation.
- 2) The Governance : No paid staff, rented office, and other admin expenses in Taiwan. No house and other fixed assets in Cambodia, Vietnam and Laos. All funds and resources are committed to education, employment and agriculture. Quarterly Reports are published online for management and financial transparency.

III. TEP Goals

1) TEP Education Goals

To Narrow Digital Gap : Practical computer skills are taught to narrow the digital gap among children, with computers from Taiwan, the world's leader in computer manufacturing.

To Eliminate Foreign-Language Illiteracy : Various courses of English, as a global lingua franca, are offered to develop the second-language literacy and to expand access to higher education.

2) TEP Employment Goals

To offer vocational training and guidance to villagers in rural areas and the migrant workers returning home from overseas to find factory and farming jobs in their own country.

To provide opportunities for rural government officials to visit and learn to help villagers find jobs in multi-national companies operating in urban areas.

3) TEP Agriculture Goals

To enhance the agricultural cooperation between Taiwan and ASEAN countries through exchange visits of Government officials and agricultural professionals for study, training and exhibition.

To increase agriculture productivity and improve farmers' livelihood by promoting technology transfer, trade and investment between Taiwan and ASEAN countries.

IV. CTEP Achievements in Cambodia

Education: 36 learning centers have been established, of which 22 remain in operations. Till December, 2019, a total of with 57,161 students had been enrolled and 32,027 graduated. To graduate, each student completes one-or-two-hour-per-day, 5-days-per-week courses spanning 12-to-16 weeks in basic English or computer studies. From now onward, 8,000+ students will graduate yearly.

(please see pages 6 ~ 28 for Profiles of CTEP Learning Centers)

Employment: CTEP cooperates with the Cambodia Government's National Employment Agency to hold recruitment events and organize factory tours. CTEP also supports 7 vocational Training Centers. Some 1,800 workers have found jobs with the help of CTEP since 2015. 800 more jobs will be placed every year.

Agriculture Cooperation: 48 Cambodians were invited to Taiwan for visits, trainings or exhibitions since 2018. More exchange visits are being arranged for trade and investment promotion and technology transfer to upgrade Cambodian agriculture and improve the lives of Cambodian farmers.

V. VTEP Achievements in Vietnam

VTEP's first Learning Center in Vietnam was opened in October 2018, followed by the second one in August 2019. More Learning Centers will be set up in 2020 with funding from Taiwanese Companies in Vietnam to reward local communities and to fulfill Corporate Social Responsibilities. VTEP's Agriculture Cooperation Program will be launched in the near future.

VI. TEP Management

TEP has more than 50 local staff and international volunteers working in Cambodia, Vietnam and Taiwan.

(A) Education Services in Cambodia (RED color)

- 13 Learning Centers Self-Managed by CTEP
- 9 Learning Centers Co-Managed by CTEP
- 14 Learning Centers Suspended or Closed by CTEP

(B) Employment, Agriculture and other Services in Cambodia (BLUE color)

- 7 Vocational Training Centers supported by CTEP
- 17 Provinces in which CTEP collaborates with NEA (National Employment Agency), CCC (Cambodia Chamber of Commerce) and GIZ (German ODA) to provide Employment, Agriculture and other Services

(C) Education Services in Vietnam and Laos (GREEN color)

- 2 Schools' Computer Classes supported by VTEP
- 1 Learning Center's Computer Classes will soon be supported by LTEP

Cambodia-Taiwan Education Program (CTEP)

TEP Culture and Education Association (TEP)

A total of 36 learning centers have been established by CTEP in Cambodia. 22 centers remain in operation after closure of 14 centers for various reasons.

In addition to CTEP learning centers, TEP supports seven vocational training centers in Cambodia and establishes two learning centers for the Vietnam-Taiwan Education Program (VTEP) in Vietnam.

CTEP has two types of learning centers :

1) Self-Managed Learning Center (SLC)

In Cambodia, many schools divide their student body into two, each attending school for a half day. SLC provides after-school education ~ afternoon classes for public schools' morning class students, and morning classes for public schools' afternoon students. There are also lessons taught in the evening for all students.

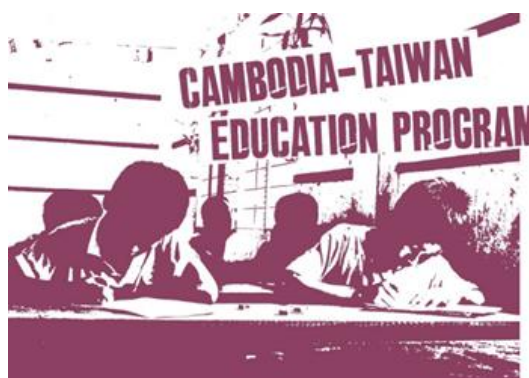

In a SLC, CTEP designs and develops learning courses, hires and trains teachers, enrolls and supervises students, assesses educational need and evaluates performance.

Due to CTEP's limited manpower and financial resources, SLC can only be set up and managed in places within three hours' drive of Siem Reap, where CTEP head office is located. Therefore, CTEP cooperates with public schools and other NGOs to jointly set up and co-manage learning centers in public schools and/or other NGO classrooms.

2) Co-Managed Learning Center (CLC)

In CLCs, public schools/NGOs assign teachers and enroll students. CTEP provides computers, textbooks, teacher training and teaching allowance. CTEP visits CLC regularly to supervise teachers, deliver exams to students and evaluate performance. CTEP also arranges exchange visits for CLC teachers and principals to visit Taiwan, and their Taiwan counterparts to visit Cambodia.

Of the 22 learning centers currently under CTEP management, 13 are SLC and 9 are CLC. Computer skills and/or English are taught in all learning centers. Chinese is taught only at CTEP Center in Siem Reap. Profiles of CTEP Learning Centers are illustrated in the following pages.

Name	CTEP Center	Establishment	2010.7
Location	Siem Reap City, 2 km from downtown \ 8 km to Angkor Wat.		
Service Area	Manage all learning centers across the country.		
Classes	Previously, computer, English and Chinese, currently Chinese only at the center.		
Students	Computer and English classes: 1510 students enrolled and 1100 graduated Chinese classes: 881 students enrolled and 506 graduated		
Teachers	Volunteers from Taiwan, Hong Kong, Malaysia and China		
Background Information	CTEP Center is the CTEP Head Office. The management team works in the center and rural teachers come here for retraining twice a month. Previously, there were large Computer, English and Chinese classes, but now only a small number of local students study Chinese here because volunteers are busy managing the increasing numbers of rural learning centers.		

S-02

(updated 2019.12)

Name	Tasne	Establishment	2013.2
Location	a primary school, 23 km west of the CTEP Center in Siem Reap Province.		
Service Area	4 villages, 3074 population, 2 primary schools, 1 secondary school.		
Classes	Computer: Word, Excel, PowerPoint, Internet English: Basic and Advanced		
Students	22 terms completed with 1761 students enrolled and 1139 graduated 23 rd term : 119 students in 5 English classes and 76 in 4 computer classes		
Teachers	Chum Sokhom: English / Roeun Ty : Computer		
Background Information	The Learning Center is sponsored by Dr. Ruan of Taiwan's Peng-Hu Dental Association and managed by CTEP. The management was transferred to a Christian Church in 2014 for two years and returned to CTEP in 2016. The classroom, previously in a small village house, is now inside a primary school.		

Name	Danroun (DR)	Establishment	2013.3
Location	a temple, 35 km east of CTEP Center in Siem Reap Province.		
Service Area	6 villages, 15,000 population, 3 primary schools, 2 high schools.		
Classes	Computer: Word, Excel, PowerPoint, Internet English: Basic and Advanced		
Students	19 terms completed with 3479 students enrolled and 2517 graduated 20 nd term : 165 students in 7 English classes and 99 in 5 computer classes		
Teachers	Toem Seyha and En Chansovichet : English / Yut Meysin : Computer		
Background Information	The Learning Center was established inside Danroun Temple to educate the temple's monks and nearby villagers. Chief monk helps enroll students and supervise teachers. In 2018, the temple built a new building and moved the CTEP Learning Center to new classrooms inside the building.		

Name	Bakong (BK)	Establishment	2013.3
Location	a local NGO classroom, 13 km east of CTEP Center in Siem Reap Province.		
Service Area	3 villages, 4578 population, 2 primary schools, 1 high school		
Classes	Computer : Word, Excel, PowerPoint, Photoshop, Internet		
Students	20 terms completed with 1649 students enrolled and 1194 graduated		
Teachers	Pres Aok and Lit Ly: Computer		
Background Information	Bakong is operated by a local NGO. Since it is near Angkor Wat, many backpackers from Europe and Australia teach English here during their short stay in Cambodia. CTEP set up two computer classrooms in Bakong to teach locals and monks basic and advanced computer skills. Due to fund shortage, one of the two CTEP computer classrooms was closed.		

Name	Ta Yaek (TY)	Establishment	2013.8
Location	a temple, 43 km east of CTEP Center in Siem Reap Province.		
Service Area	5 villages, 8265 population, 3 primary schools, 1 secondary school		
Classes	Computer : Word, Excel, PowerPoint, Internet English : Basic and Advanced		
Students	19 terms completed with 2656 students enrolled and 1771 graduated 20 th term : 173 in 6 English classes and 108 in 7 computer classes		
Teachers	Chhourm Sreymom: English/ Rin Sopheak: Computer		
Background Information	Sponsored by Dr. Ruan of Taiwan's Peng-Hu Dental Association, the Learning Center was originally set up in an empty classroom donated by Japanese. It later moved into a pagoda where there are more students and better security. The monks help enroll students and supervise the teachers. Dr. Ruan come here frequently to offer free dental service.		

Name	Keav Poir (KR)	Establishment	2013.9
Location	a commune, 18 km west of CTEP Center in Siem Reap Province.		
Service Area	8 villages, 7370 population, 3 primary schools, 1 secondary school		
Classes	Computer : Word, Excel, PowerPoint, Internet English : Basic and Advanced		
Students	18 terms completed with 2202 students enrolled and 1259 graduated 19 th term : 138 students in 6 English classes and 62 in 4 computer classes		
Teachers	Sot Sim and Heng Sophoung: English / Net Chandara : Computer		
Background Information	A thatched classroom next to the commune hall was built by Taiwan Shih Chien University. Rural youth from neighboring villages come to learn computer skills and English in the classroom. The learning center further expanded in 2018 to open a computer class in the nearby secondary school (KRS).		

Name	Stueng Preah Srok (SPS)	Establishment	2013.9
Location	a primary school, 23 km west of CTEP Center in Siem Reap Province.		
Service Area	5 villages, 5782 population, 3 primary schools, 1 secondary school		
Classes	Computer : Word, Excel, PowerPoint, Photoshop, Internet English : Basic and Advanced		
Students	18 terms completed with 5560 students enrolled and 3603 graduated 19 th term : 297 students in 13 English classes and 117 in 6 computer classes		
Teachers	Ke Bunthong, Am Sereyath and Chann Saven : English / Saron Kong : Computer		
Background Information	Taiwan Shih Chien University built two thatched classrooms in the primary school. Internet facilities have been set up for advanced computer courses. Four teachers are hired to teach growing numbers of students. With strong support from the school principal and village chief, SPS has grown into one of the largest CTEP learning centers.		

Name	Thnal	Establishment	2013.9
Location	World Vision Club Activities Center, 75 km east of CTEP Center in Siem Reap Province.		
Service Area	4 villages, 10954 population, 3 primary schools, 1 secondary school		
Classes	Computer : Word, Excel, PowerPoint, Internet English : Basic and Advanced		
Students	19 terms completed with 3655 students enrolled and 2587 graduated 20 th term : 214 in 7 English classes and 91 in 5 computer classes		
Teachers	Ean Dina: English/ Ro Menghok: Computer		
Background Information	World Vision built its activity centers for use on the weekend. During the weekdays, CTEP uses them as classrooms. With strong support from local government, CTEP expands its education services from one to three classrooms to educate more students from nearby villages.		

Name	KOL	Establishment	2014.10
Location	a primary school, 48 km east of CTEP Center in Siem Reap Province.		
Service Area	4 villages, 3153 population, 2 primary schools, 1 secondary school		
Classes	Computer : Word, Excel, PowerPoint, English : Basic and Advanced		
Students	15 terms completed with 2193 students enrolled and 1595 graduated 16 th term : 86 in 3 English classes and 121 in 7 computer classes		
Teachers	Kang Yam: English/ Huy Bunham: Computer		
Background Information	KOL is sponsored by Cambodia Health and Smile Organization which is an NGO founded by Dr. Ruan of Peng-Hu Dental Association. The classroom is in a building donated by a Japanese NGO. Many parents from the area didn't pay much attention to their children's education. The situation is improving as the school principal and teachers work hard to persuade parents to bring their children to the learning center.		

អង្គការសុខភាពនិងស្មាយញ្ញីមកម្ពុជា
Cambodian Health and Smile Organization

Name	Doun Sva (DS)	Establishment	2015.8
Location	a primary school, 53 km west of CTEP Center in Siem Reap Province.		
Service Area	4 villages, 2964 population, 3 primary schools, 1 high school		
Classes	English : Basic and Advanced		
Students	12 terms completed with 2542 students enrolled and 1710 graduated		
Teachers	Ye Sea: English		
Background Information	The primary school building was donated by an American Foundation. The school principal helps enroll students and supervises the teachers. DS used to have both computer and English classes. In 2018, CTEP started a computer class in a high school (AC) nearby and discontinued the computer courses in DS.		

Name	APS	Establishment	2015.12
Location	a primary school in Battambang province, 195 km from CTEP Center.		
Service Area	5 villages, 5072 population, 3 primary schools, 1 high school		
Classes	English : Basic and Advanced		
Students	9 terms completed with 1129 students enrolled and 487 graduated 10 th term : 138 in 6 English classes		
Teachers	Roeum Sokren: English		
Background Information	APS was originally set up in a Catholic church. In 2016, it moved to a primary school where there are more students. CTEP sends senior teachers to supervise and help with teaching on a regular basis. Due to electricity shortage, there is no computer class yet. Computer teacher will be hired when the electricity supply is stable in this remote learning center.		

Name	Kampong Svay (KPS)	Establishment	2016.5
Location	a primary school in Kampong Thom province, 162 km south of CTEP Center.		
Service Area	4 villages, 14976 population, 3 primary schools, 1 high school in Kampong Thom province		
Classes	English : Basic and Advanced		
Students	9 terms completed with 1523 students enrolled and 581 graduated 10 th term : 202 in 9 English classes		
Teachers	Chhut Hoklim and Rin Tourann: English		
Background Information	KPS, located in a primary school in Kampong Thom Province, is far away from the CTEP Center in Siem Reap Province. CTEP sends senior teachers to supervise and help teach on a regular basis. The school principal not only helps CTEP’s education program, but also the employment program in the rural area.		

Name	Prasat Thnong (PT)	Establishment	2016.8
Location	a temple, 44 km west of CTEP Center in Siem Reap Province.		
Service Area	4 villages, 11345 population, 2 primary schools, 1 secondary school		
Classes	Computer: Word, Excel, PowerPoint, English : Basic and Advanced		
Students	8 terms completed with 1525 students enrolled and 987 graduated 9 th term : 193 students in 7 English classes and 61 in 4 computer classes		
Teachers	Chhoeung Vuth, Noek Sary: English / Chhoeung Vuth: Computer		
Background Information	PT was initially established in a community building. It later moved into the primary school nearby to improve management and security. In 2016, the learning center moved once again, this time to the temple as it is more populated and parents prefer that their children stay close.		

C-01

(updated 2019.12)

Name	Bavet General and Technical High School (Bavet)	Establishment	2018.4
Location	Bavet City, Svay Rieng Province, 475 km south east of CTEP Center.		
Service Area	Svay Rieng Province has a population of 650,000 of which 370,000 are youth; Bavet City's industrial zones employ more than 30,000 workers. There are 4 primary schools and 2 secondary schools adjacent to the Bavet school.		
Classes	Computer : Word, Excel, PowerPoint		
Students	<p>Bavet school has 1020 students. There are 28 computer classes with 40 ~ 60 students in a class.</p> <ul style="list-style-type: none"> ▪ 2 term completed, with 1876 students enrolled and 1465 passed ▪ Term 3 : 1020 students are studying 		
Teachers	Mr. Sngoun Senhour, Mr. Pech Pul, Mr. Doem Vanda, Mr. Pheny Koy, Mr. Prom Theara, Mr. Seng Vanna, Mr. Moth Sotheavan, Tha Thi		
Background Information	Bavet is 5 km from the Vietnamese Border Checkpoint. Many factories are moving in from Vietnam and therefore technicians are in high demand. CTEP sets up a computer classroom in Bavet school to help educate more technicians.		

C-02

(updated 2019.12)

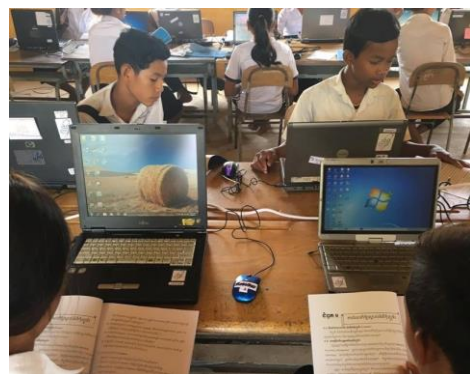

Name	Chumpuvorn General and Technical High School (CPV)	Establishment	2018.11
Location	Phnom Penh City, 322 km south of CTEP Center.		
Service Area	Phnom Penh is Cambodia's capital and manufacturing center. The metropolitan area has more than 3 million people and thousands of factories.		
Classes	Computer : Word, Excel, PowerPoint		
Students	CPV has 6800 students in years 7-12 and a total of 24 computer classes. Each student spends one hour per week in the computer class. Term 1 completed with 810 students enrolled and 772 passed Term 2 : 1239 students are studying		
Teachers	Mr. Long Ratha, Mr. Phon Phalla		
Background Information	Cambodia's manufacturing economy is shifting from a labor-intensive garment to electronics and auto-components industry, which needs increasing numbers of technicians. CPV is surrounded by many factories and its nearby Phnom Penh Special Economic Zone is Cambodia's best managed industry zone.		

Name	Hun Sen Balang High School (HSB)	Establishment	2018.11
Location	Kampong Thom Province, 146 km south of CTEP Center.		
Service Area	Kampong Thom Province has a population of 795,615 with 59,044 in the Province’s capital city. There are 6 primary schools, 4 secondary schools and 25 villages near HSB.		
Classes	Computer : Word, Excel, PowerPoint		
Students	HSB has 1300 students in years 7-12 and a total of 13 computer classes. Each student spends two hours a week in the computer class. Term 1 completed with 518 students enrolled and 453 passed Term 2 : 586 students are studying		
Teachers	Mr. Neak Vasokrey		
Background Information	Kampong Thom is an agricultural province. Most young people leave home for jobs in Phnom Penh and Thailand. The local government is endeavoring to attract manufacturing and service companies to the province and therefore needs more well-educated people. CTEP not only set up computer classes but also support the school’s sewing classes.		

Name	Kien Sangke High School (KS)	Establishment	2018.11
Location	Siem Reap Province, 37 km east of CTEP Center.		
Service Area	KS is in Kien Sangke commune where there are 11,474 population in 14 villages and 4 primary schools.		
Classes	Computer : Word, Excel, PowerPoint		
Students	KS has 845 students in years 7-12. Each student spends one hour per week in one of the school's 7 computer classes. Term 1 completed with 212 students enrolled and 186 passed Term 2 : 284 students are studying		
Teachers	Mr. Kong Phanit		
Background Information	The school is located in a village not far away from Angkor Wat, the world famous Heritage Site. Most villagers are farmers who, in addition to farming, take seasonal jobs in tourism to support their daily life. CTEP's computer education helps farmers' children access to digital resources.		

Name	Keo Por Secondary School (KRS)	Establishment	2018.11
Location	19 km west of CETP Center		
Service Area	KRS is in Keo Por commune where there are 3 primary schools and a population of 7,442 in 7 villages.		
Classes	Computer : Word, Excel, PowerPoint		
Students	KRS has 230 students in years 7-9. All students take computer courses, one hour per week, in the school's 5 computer classes. Term 1 completed with 209 students enrolled and 177 passed Term 2 : 216 students are studying		
Teachers	Mr. Net Chandara		
Background Information	KRS is located in a farming area near Baray Lake. Farmers can grow crops even in the dry season with water from the lake. Young people go to work in Siem Reap during the Angkor Wat tourism season. Computer skills are needed for jobs in the service industry.		

Name	Angkor Chum High School (AC)	Establishment	2018.11
Location	55 km north west of CETP Center.		
Service Area	AC is located in Char Chhouk commune where there are 40,435 population in 20 villages, 8 primary schools and 4 secondary schools nearby.		
Classes	Computer : Word, Excel, PowerPoint		
Students	AC has 1,646 students in years 7-12 and 9 computer classes. Each student spends one hour per week in the computer class. Term 1 completed with 462 students enrolled and 431 passed Term 2 : 405 students are studying		
Teachers	Mr. Tes Sereyvong		
Background Information	The school is not far from Thailand. Many villagers migrate to work in Thailand. Some students drop out from schools to go abroad with their parents. Local people are persuaded to give their children better education in order to find good jobs in their own country.		

C-07

(updated 2019.12)

Name	Battambang (BB1)	Establishment	2014.12
Location	Battambang city, 185 km west of CTEP Center.		
Service area	Battambang is the capital city of Battambang province in northwestern Cambodia. The city has a population of 200,000. BB1 serves 5 villages of 8,037 people in suburban area.		
Classes	Computer : Word, Excel, PowerPoint, Internet		
Students	There are 3 primary schools and 1 high school nearby, but most of BB1 students are university students. BB1 has completed 14 terms with 1408 students enrolled and 1111 graduated. Currently, 118 students in 8 computer classes are studying in the 15 th term.		
Teachers	Lin La : Computer		
Background Information	BB1 is located inside a church. Catholic sisters manage the learning center with support from CTEP. Since Battambang neighbors Thailand, many people in the province migrate to work in Thailand.		

Name	Kampong Kdei (Kdei)	Establishment	2018.2
Location	A community learning center, 67 km east of CTEP Center in Siem Reap Province.		
Service area	Kdei is in Kampong Kdei commune, which is composed by 11 villages of 11,037 population, 4 primary schools and 1 high school.		
Classes	English : Basic and Advanced		
Students	Kdei had completed 3 terms with 644 students enrolled and 537 graduated. The 4 th term has 229 students enrolled in 9 classes.		
Teachers	Seup Kea, Soun Vireak Tit Phoan and Tit Sochea : English		
Background Information	Kdei is one of the poorest communities in Siem Reap. Most villagers are farmers and fishermen who do not benefit from the Tonle Sap river because there is no irrigation system. Kea is Kdei's founder and manager who is devoted to education.		

Name	SGT General and Technical High School (SGT)	Establishment	Oct. 2019
Location	Kampong Chhnang Province, 309 km south-west of CTEP Center.		
Service area	The province has a population of 500,000 with only 12,000 in its capital city.		
Classes	Computer: Word, Excel, Power Point (ICT)		
Students	All 1734 students in the school's 45 classes are currently studying computer		
Teachers	Mr. Kan Ra, Mr. Chann Phearin, Ms. Reth Channary, Mr. Rith Rathana		
Background Information	Preah Bat Samdach Preah Baromneath Norodom Sihamoni General and Technical High School is named after the King. The school was a general high school established in 1982. It was converted into General and Technical High School in 2003. Kampong Chhnang is not far away from Phnom Penh and therefore many factories move to the province and need many workers and technicians. The school is located in downtown of Kampong Chhnang Capital City and is short of classrooms for increasing number of students.
